GAGANA S R

Email | +916362918339 | LinkedIn |GitHub | Bengaluru, India

OBJECTIVE

Computer Science graduate with a strong foundation in programming, software development, databases, and web technologies, complemented by hands-on project experience. Seeking an entry-level opportunity to apply technical and analytical skills, embrace new technologies, contribute to organizational success, and build a rewarding career in the IT industry.

INTERNSHIP EXPERIENCE

Java Full Stack Intern | Dhee Coding Lab Feb 2026 – July 2026 | Bengaluru, India

- Gained hands-on experience in Java, Spring Boot, Spring MVC, RESTful APIs, and MySQL through real-time application development.
- Developed CRUD-based applications using Spring Data JPA, Hibernate, layered architecture, and REST APIs.
- Tested and debugged applications using Postman, SQL, and functional validation while managing projects with Maven and Git/GitHub.

SKILLS

Programming Languages:

- Core Java: OOPs, Collections, Exception Handling
- Java 8 Features: Streams, Lambda Expressions, Map, Filter, Optional

Back-End Development:

- Spring Framework: Spring MVC, Spring Boot, Spring Data JPA, Spring RESTful APIs, Spring Security, JWT, Microservice.

Front-End & Web Technologies:

- HTML5, CSS3, JavaScript.
- Libraries / Framework : Tailwind CSS.

Database Management:

- MySQL .

Development & Tools:

- Maven, Git, GitHub, Swagger(OpenApi), Postman(OpenApi)

IDEs & Code Editors:

- Eclipse, Spring Tool Suite (STS), Visual Studio Code.

DevOps & Cloud:

- Linux, AWS, Docker, Jenkins

Soft Skills:

- Team Leadership, Time Management, Effective Communication, Continuous Learning

EDUCATION

Bachelor of Engineering in Information Science and Engineering **CGPA : 7.5**

Presidency University– Bengaluru, Karnataka 2022 – 2026

PROJECTS

Tours and Travels – Travel & Package Booking System(J2EE)

- **Role:** Developer.
- **Technologies and tools:** Java, J2EE, MySQL, HTML, CSS, JavaScript, Git ,GitHub.
- **Description**: Developed a web-based Employee Management System using Java, Servlets, JSP, JDBC, and MySQL following the MVC architecture. Implemented CRUD operations for employee records, including add, update, delete, and search functionalities. Integrated JDBC for database connectivity and optimized SQL queries for efficient data management. Designed responsive user interfaces using HTML, CSS, and JavaScript, and deployed the application on Apache Tomcat Server, gaining hands-on experience in Java EE web application development.

Tours and Travels – Travel & Package Booking System (Monolithic Architecture)

- **Technologies used:** Java, Spring Web MVC, RESTful APIs, Spring Data JPA, Hibernate, MySQL, Maven, Git, GitHub.
- **Description:** Developed a travel and package booking application using Spring Web MVC and RESTful APIs. Implemented CRUD operations for travel packages and booking management using Controller, Service, Repository, and Entity layers. Integrated MySQL using Spring Data JPA and Hibernate for database persistence. Developed and tested REST endpoints using Postman and validated HTTP methods, response status codes, request/response data, and database operations.

Certifications

- Learn Java, Problem Solving in Java, DSA in Java (CodeChef)
- Front End Development (Great Learning)

Declartion

I hereby affirm that the information provided is true and correct to the best of my knowledge. If given an opportunity, I am committed to putting forth my utmost effort to learn and perform the duties entrusted to me to the best of my ability.
